This meeting is to inform ratepayers of changes effective March 31, 2017 to the Landfill, Garbage and Recycling Programs.

With the new environmental rules and regulations we had to make some major decisions that will affect the ratepayers within the Village of Dinsmore and surrounding Municipalities.

Loraas Disposal has been contracted for Village of Dinsmore Garbage & Recycle Programs effective March 1, 2017. A representative from Loraas disposal will be in attendance at the meeting to answer any questions.

As ratepayers of the Village and surrounding rural Municipalities we hope to see you at the meeting and hopefully answer any questions or concerns you may have.
